# About Us|

We feel that the office is crucial to who we are as Americans and human beings. Humans thrive on relationships and communication through reality. Having a place to work where you feel comfortable, efficient, successful, and at ease is all a part of what we think about when designing your office space.

Common Sense and Boomerang are open line furniture dealerships, which means we're not limited to one brand or collection. Instead, we work with hundreds of manufacturers, giving us the flexibility to find the right solutions for your unique needs. The options presented here are just a starting point—our access to a wide range of styles, price points, and product lines allows us to tailor every project to your specific vision, timeline, and budget.

We believe value and good service never go out of style.
